

# AC 20

## Air Cleaner

**BREATHE WITHOUT BACTERIA  
AND VIRUSES**

Our contribution to  
clean air!

# without chemicals  
# made in germany

### The new Veit AirCleaner AC 20 ensures a bacteria- and virus-free room climate

The air cleaner AC 20 enables you to disinfect air by ultraviolet radiation (UV-C) and offers you the possibility to create a physiologically valuable room climate. With the support of UV-C radiation, up to 99% of the bacteria and viruses in the air can be eliminated.

- Using a powerful fan, the room air is fed through a dust filter into the system and disinfected along the UV-C lamps.
- After the process the cleaned air is returned to the environment.

Your advantage is that you can do without any chemical additives and so the associated negative influences (e.g. formation of smells, residues on surfaces, etc.) are eliminated.

In addition, the AC20 can continuously disinfect the air in your everyday life 24/7 without interference and ensure a bacteria- and virus-free environment for your fellow human beings.

### YOUR ADVANTAGES

- ✓ Low acquisition costs
- ✓ Low maintenance and operating costs
- ✓ High efficiency (up to 99% of bacteria are killed)
- ✓ Flexible application possibilities
- ✓ Continuous operation 24/7 possible
- ✓ Made in Germany

„TAKE A DEEP BREATH  
WITH NEW VEIT AC 20 AND  
CONVINCE YOURSELF OF  
THE ADVANTAGES FOR YOUR  
BACTERIA- AND VIRUS-FREE  
ROOM CLIMATE.“

#### Areas of application:

- Hospitals
- Retirement home
- Office building
- Manufacturing industry
- Public institutions

#### VEIT GMBH

The VEIT Group with its head office in Landsberg, Germany, is worldwide the leading manufacturer of ironing equipment, fusing machines, pressing machines as well as refinishing equipment for garments.

#### Pressing for Excellence

For more than 60 years, VEIT Group products have been models of outstanding quality and maximum efficiency

WE PROUDLY PRESENT  
**AC 20**

Bracket:

- possibility for ceiling mounting

Design:

- compact VEIT-Design

Maintenance:

- easy filter and lamp change possible

Fan:

- high air flow with 300m<sup>3</sup>/h

Output:

- 9000 operating hours per UV-C lamp
- continuous operation possible

**“Our response to viruses.**

**The new VEIT AC 20.”**

Sascha Oehl, Director Product & Innovation

TECHNICAL PROPERTIES:

- ✓ Dimensions: 1200x400x400mm
- ✓ Supply voltage: 230V (50Hz)
- ✓ Emitter power: 2 x 95W
- ✓ IP 23

OPTION:

- ✓ Simple operation by radio remote control
